Key Benefits

- ✓ Provides a realtime, crystal clear view of construction projects at every stage of your business
- ✓ Leverages your company infrastructure, providing a realistic view of construction, business objectives, and achievements
- ✓ Cost-effective with an excellent user experience and return on investment
- ✓ Meet regulatory compliance
- ✓ Easy and secure access to incoming/outgoing business critical information
- ✓ Save time searching and retrieving key business information
- ✓ Share information securely with internal and external users
- ✓ Securely send files to outside parties for editing/viewing with deadlines
- ✓ Digitize physical records
- ✓ Secure digital storage at rest and in transit
- ✓ Multiple input options
- ✓ Batch import documents
- ✓ Physical file scanning options
- ✓ Securely input, find, access, and edit crucial information from the field
- ✓ Automate indexing of documents
- ✓ Automated input with Easy Index
- ✓ Collaborate using workflow, streamlining business processes
- ✓ Optical Character Recognition
- ✓ Documents in workflow enter your to-do list
- ✓ Automated data exchange with external workflow processes
- ✓ Email notifications for workflow processes
- ✓ Find, edit, and approve documents in workflow from anywhere
- ✓ Run workflow reports
- ✓ Edit, approve, eSign, annotate, or redact documents from anywhere
- ✓ User permissions' secure access
- ✓ Track document versions and revisions
- ✓ Retention policies: archiving, purge, and document life cycle
- ✓ Real time auditing and reporting
- ✓ Easy integrations and SDK included

We put our customers' needs first

- ✓ We prioritize compliance and security
- ✓ Flexible and easily adaptable to your business needs
- ✓ Reliable, expeditious, flexible, expert customer service team
